The Course Quality Team

We are a group of instructional design professionals who support, guide and empower instructors in the application of research-based practices built upon the Quality Matters approach to course and program improvement. We are here to support faculty every step of the way toward their course quality goals.

Learning Objectives

- 1** Identify components of a quality assurance plan for increasing QM impact
- 2** Discuss goals for creating QM-based professional development
- 3** Develop an action plan for professional development goals

Description

Impact

Milestones

Budget

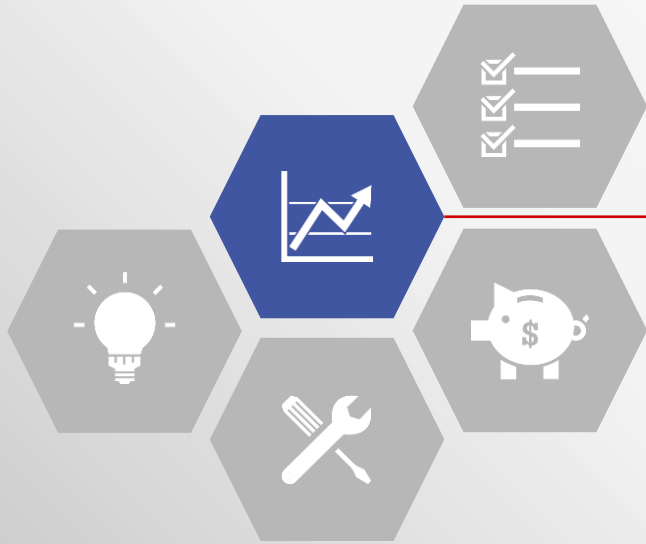

Resources

● Project Description

- Justification
- Goals
- Deliverables
- Project success

● Projected Impact

- Professional development enrollments
- QM Certified courses

Resources

- Staff and faculty
- Tools and resources
- Professional development

• Budget

- QM professional development and materials fees
- QM course review fees
- Faculty stipends

Milestones

- Creation of digital resources
- Delivery of professional development
- Course preparation and certification
- Evaluation of impacts

A low-angle, black and white photograph of a tall, stone bell tower, likely the Leaning Tower of Pisa, viewed from the bottom looking up. The tower's structure is composed of many rectangular stone blocks. The right side of the image is overlaid with a solid red color. The text 'Outcomes Years 1-5' is written in white on the red background.

Outcomes Years 1-5

Belltower image credit: Roger W Winstead

Year 1

Launch of semester-long course improvement program to help faculty prepare for QM review.

Number	Success measure
9	QM professional development completions by faculty and staff
1	Certified course
125	Students enrolled annually in a QM-certified or recognized course

2017-2018

Year 2

Certification of APPQMR facilitators and Peer Reviewer training for staff.

2018-2019

2017-2018

Number	Success measure
53	QM professional development completions by faculty and staff
12	Certified courses
1,212	Students enrolled annually in a QM-certified or recognized course

Year 3

Launch of second professional development course for QM essentials. Create internal review process.

2019-2020

2018-2019

2017-2018

Number	Success measure
121	QM professional development completions by faculty and staff
21	Certified courses
2,886	Students enrolled annually in a QM-certified or recognized course

2020-2021

2019-2020

2018-2019

2017-2018

Year 4

Creation of more pathways for instructors with limited experience. Begin Teaching Online Certification (TOC) cohort training.

Number	Success measure
238	QM professional development completions by faculty and staff
38	Certified courses
5,040	Students enrolled annually in a QM-certified or recognized course

2021-2022

Year 5

Develop short, asynchronous, just-in-time training modules based on the eight QM General Standards.

2020-2021

2019-2020

2018-2019

2017-2018

Number	Success measure
356	QM professional development completions by faculty and staff
54	Certified courses
9,619	Students enrolled annually in a QM-certified or recognized course

Designing QM- based professional development

standards

Eight modules, 30-
90 minutes each

Self-paced course
delivery

Experience

Goal

Feedback

Staff load

A photograph of a tall, ornate stone belltower at night, illuminated from below. The tower features classical architectural elements like columns and arches. The background is a dark blue night sky with a bright, glowing sun or moon in the upper right. Several colorful bokeh light spots in shades of red, blue, and white are scattered across the scene, creating a dreamy atmosphere.

How can you scale up your QM impact?
