

1. Who are we serving?

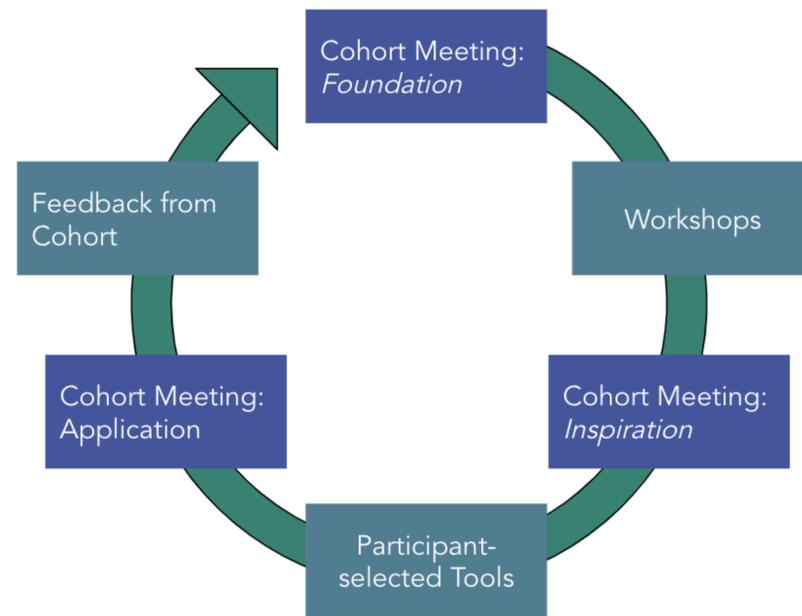

2. An Open Approach

3. The Open Pedagogy Incubator Model

- A semester-long cohort of instructors
- A series of hands-on workshops, curated readings, and cohort discussions
- Outcomes: Adoption and implementation of open interventions

4. Flexibility & Scalability

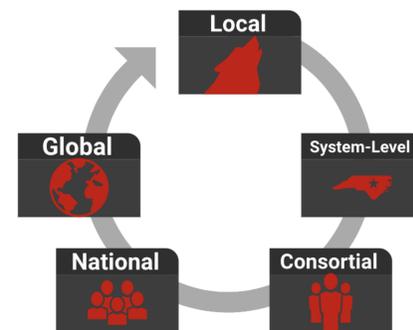

- So far: 2 interdisciplinary cohorts from NC State, 1 UNC system-wide cohort
- Departmental, institutional, regional, national, global possibilities
- As open as possible, as closed as necessary

5. Lessons Learned

- Many perspectives: space for participants to guide discussion
- Suitability: open interventions that fit
- Introduction: often beginning rather than end of journey
- Support: Community often matters more than resources

6. Joining the Open Community

- A living process, always in development
- Iterative community: guest speakers from earlier cohorts
- Institutional, regional, national, global open communities

7. Incubator Materials
